Summary

As a logistics process specialist, I ensure the supply chain network is optimized (in projects), as well as the supply chain process (including 3PL, 4PL). Due to my knowledge, experience and expertise I analyze the topic and achieve the best solution for any challenge or problem, nevertheless satisfying the customer. I realize this by analyzing the process, coaching and supporting colleagues and/or co-workers transparently.
I pay close attention to transparent communication with internal stakeholders and supply chain partners. In these situations I also show that my biggest strength is the cooperation with all supply chain partners, making decisions and take ownership and my responsibilities.
